

# TODDLER CLASSROOM

## Over the next "13 weeks"...

Each Toddler should create, design, and engage in discussion of their "Genesis 1" Plate Craft.

Each week please take the time to begin/finish/enhance/simply teach the toddler's about the 7 days in Genesis 1. They have 13 weeks to create the craft from start to finish... there will be no need to rush or complete the task each week. You could do part of the craft, have a discussion about the day and then engage in play, the following Sunday that teacher would finish the other half of the craft or whatever needs to be done to have this whole craft and subject covered in the 13 weeks ahead. If a student misses a week, they can take the opportunity to catch up, as well.

All of the materials will be in the classroom.

This is only a foundational tool to teach the 6 days of creation + 1 day of rest, please refer to the document on the next pages to see the scriptures and prompts for questions.

Be willing to teach the children even if they can't understand a word you are saying -- they understand more than we give them credit for!

## SAMPLE FROM PINTEREST - CCF COPY WILL BE IN CLASSROOM
